

TOILET TROUBLESHOOTING

Using the Conversational Agent

Our conversational agent is designed to search out terms in order to provide you a topic / answer. Below are several Key Words you can put into the “Question Box” to help find related topics and problem solving answers.

- A Ballcock
- B Bowl cleaners
- C Bowl gasket
- D Fill valve
- E Fill valve cap
- F Flush valve
- G Flappers
- H Incomplete flush
- I Leak guard valve
- J Leak Sentry valve
- K Tank lever
- L Tank bolts
- M Water supply
- N Warranty replacement
- O Whisper fill valve

Using these Key Words will help you choose from a wide range of problem solving topics. If in fact these topics do not lead you to a solution for your specific problem, feel free to ASK BOB a direct question or statement. For example:

- A My valve float sticks
- B I have an American standard toilet
- C I have a Kohler toilet
- D My flapper closes too soon
- E How does the fill valve work?

These examples are designed to help you solve your toilet problems. Please remember the conversational agent works best with short concise questions / statements.
